Boarder's contract

Once a student has been formally admitted to the school by the SSSL Admissions Board, a boarders' contract is drawn up between the school and the student's parent(s)/guardian to be signed.

Municipal registration

Students from Sweden who live abroad should not be registered in the Swedish population register according to the Swedish National Agency for Education, and the rules on population registration for stays longer than 12 months do not apply to those who began their studies before turning 18 and will complete them before their 21st birthday.

You should remain registered at your parents' address if you are under 18 years old and, due to your studies, must live in a different residence than your parents. This applies as long as you continue your studies in compulsory school, upper-secondary school, or an equivalent education that you began before turning 18. However, this applies only up until your 21st birthday.
