ANDTS policy for SSHL

-alcohol, narcotics, doping, tobacco- and nicotine
products and gambling

The school's vision

SSHL's vision is a school free from alcohol, drugs, doping, tobacco- and nicotine products, and gambling (ANDTS) where the school strives to promote an active and healthy lifestyle.

Goal

Our goal is that all staff and students at SSHL should have knowledge of *ANDTS* and its harmful effects on individuals and society. Staff and students must be involved in the proactive and preventive work.

Responsibility

The Principal is ultimately responsible for the *ANDTS* policy and for ensuring that the action plan is followed; all staff members have a responsibility to make sure that the policy is adhered to. This means that all staff at the school must actively work against and stop any use of alcohol, narcotics, doping, tobacco and nicotine products, and gambling.

- The Principal is responsible for ensuring that all SSHL staff are informed of the policy and its adherent action plans.
- The policy should be available on the school's website and the action plans on the school's intranet.

A school free from alcohol, drugs, doping, tobacco and nicotine products, and gambling

At SSHL there is an absolute zero tolerance for alcohol, drugs, doping, tobacco and nicotine products, and gambling - this is strictly forbidden during school hours and on the school campus.

The school is obliged to protect children and young people from drugs according to the UN Convention on the Rights of the Child and the Act on Tobacco and Similar Products.

According to the Act on Tobacco and Similar Products, smoking is forbidden on premises intended for childcare, school activities or other activities for children or young people, as well as on schoolyards. The ban also applies to activities organised by the school and to the school's extracurricular activities.

Boarding students are subject to these rules throughout their entire stay at SSHL.

The Act on Tobacco and Similar Products contains regulations on tobacco, electronic cigarettes and refill containers, herbal smoking products and the use of recreational substances that are equivalent to smoking in terms of use but do not contain tobacco. This policy thus covers the same.

Act (2018:2088) on Tobacco and Similar Products.
